Solutions to  
Illegal Dumping

# Moultrie Game Spy Camera

There are many different cameras available. Check to see which camera is best suited to meet your needs before making a purchase. They are affordable and easy to use.

10 cameras were purchased through our Clean Communities Grant. We loan them out to municipalities to assist in finding those who are responsible for illegal dumping.

The cameras are mounted on trees and not readily noticeable.

09.16.2016

The camouflage cameras blend in well.

09.16.2016

The camera films the car.

A silver SUV is parked on a dirt road that curves through a dense, lush green forest. The car is positioned in the lower right quadrant of the frame, facing towards the left. The surrounding vegetation is thick with various shades of green, including tall trees and dense undergrowth. A yellow text box is overlaid on the image, containing the text "Car stops along road."

Car stops along road.
