

Clear the drains before it rains!

South Plainfield Clean Communities Committee

WHAT YOU CAN DO

- Adopt the storm drain near your home. This means you will volunteer to regularly inspect it and keep it clean.
- Remove litter from your property and street, even if it is not yours.
- Recycle all bottles and cans. Make sure your recycling bins don't overflow. If your recyclables fall out of the bin, pick them back up.
- Encourage your neighbors to keep their storm drains clean.

Clear the drains before it rains!
